ABOUT THE CAMP

Girls STEAM Camp is a four-day program designed for middle school students to explore science, technology, engineering, agriculture and math during the summer break from school. Faculty and students from the College of Engineering, College of Applied Sciences and Arts, College of Science and College of Agricultural Science will lead students through hands-on experiments, exploring the natural environment and engaging in demonstrations. The goals are to explore the world around us, to enhance confidence in problem solving, to meet new people and to spark our students' interest in important careers that can improve the world in which we live.
