

PATHWAYS TO SALUKI MEDICINE

Pathways to Saluki Medicine is a chance to dive deep into the wild world of biomedical careers! Pack your bags for a five-day adventure, where you'll meet fellow science enthusiasts, learn some wizard-level medical skills, and explore your passion for medicine. You'll get to meet real-life pros, try your hand at different medical specialties, and take part in some serious fun and games. Join us and take the first steps towards reaching your dream career in medicine!

LEARN ABOUT MEDICAL CAREERS

Hear about careers from pros themselves: healthcare hotshots, research gurus, SIU faculty, and the cool kids on campus - undergrad, graduate, and med students. Get the inside scoop on what it takes to make it in this dynamic field!

HANDS-ON EXPERIENCES

With our hands-on learning program you'll build a solid foundation and learn some seriously cool clinical skills. Dive into case studies, master CPR and first aid, and get a tour of the cadaver anatomy lab.

FUN NIGHTLY ACTIVITIES

From paddling on the campus lake to thrilling workouts at the student rec center, and even fun games like bowling, ping pong, and trivia, there's always something to enjoy on campus.
