BATS AND MINES NATIONAL WORKSHOP

October 5–7, 2020

The Brown Hotel, Louisville, Kentucky

Join us at the Bats and Mines National Workshop as we work to develop strategies to assist agencies, consultants and others in addressing regulatory and management challenges when bats are encountered at mines.

Workshop Focus:

1. Overcoming management challenges to private, state, and federal organizations involved in mining.
2. Developing ways to address problems encountered at mines containing bats.

Workshop Themes:

1. Abandoned Mine Lands (AML);
2. Regulatory Concerns of the Surface Mining Control and Reclamation Act (SMCRA); and
3. Biology and Ecology of Bats/White Nose Syndrome

Who Should Attend?

Consultants, state and federal agency personnel, mine operators, land managers, researchers, and anyone involved in managing bats in and around mines.

The Bats and Mines Workshop is presented by the Protecting Bats at Mines Interagency Work Group and sponsored by the Office of Surface Mining Reclamation and Enforcement (OSMRE)
