The Southern Illinois Law and Leadership Conference serves as an important professional development and networking opportunity for K-12 and higher education professionals in the Southern Illinois region. In order to continue this tradition, we aim to develop partners, through sponsorship, to help fund conference activities, speakers, proceedings, and the start of an SIUC Educational Administration Scholarship Program for future school leaders.

Your support will help advance our educational and professional mission, as well as provide you wide exposure to key decision-makers in this region, increasing networking, business, and information-sharing opportunities.

We look forward to your participation in this event.
