

STEAM FOR ALL

Science. Technology. Engineering. Arts and Mathematics

A day-camp for local youth in grades 6th - 8th hosted on the campus of Southern Illinois University, Carbondale. **This is a FREE camp**, funded through an ISBE grant. The focus is on helping grow awareness, access, and excitement about science, technology and the arts for local students, especially those who may not often have opportunities to explore their potential futures in STEAM related fields.

There are two camp weeks in June (9-13 & 23-27) which will host a maximum of 30 local students for each session, 60 students total. The camp registration fee is waived thanks to the ISBE grant; however, the grant **does not cover food** for the day-camp. We are currently seeking sponsors to help ensure that our campers have the fuel needed to experience all of the fascination and fun of the **STEAM for ALL** summer camp experience.
